

CIA INTERNAL USE ONLY

ADDENDUM TO JOURNAL
OFFICE OF LEGISLATIVE COUNSEL

Monday - 28 February 1977

1. (Unclassified - THW) LEGISLATION Tom Smeeton, House International Relations Committee staff, called stating that Representative William S. Broomfield (R., Mich.) would be interested in reviewing any legislation posed by the Agency concerning oversight or sources and methods. Representative Broomfield co-sponsored a bill last session and would like to be of assistance this session if possible rather than go through the process of developing his own legislative proposals.

2. (Unclassified - THW) BRIEFING In response to her call to Jim Lilley, NIO/China, Joyce Shub, House International Relations Committee staff, and I discussed the Asian and Pacific Affairs Subcommittee's interest in a briefing. She said the Subcommittee was about to begin a series of hearings on security assistance and economic aid to various countries and would be interested in a briefing on the political and military situation in any of the countries in the Pacific or Asian area where a threat to U.S. interests could be perceived, particularly if the U.S. did not provide security or economic assistance to those countries. They would like the briefing for Monday, 7 March 1977, at 2:00 p.m. It will be executive session and witnesses will be limited to members of the Subcommittee and cleared members of the Subcommittee staff. I told her tentatively that we could probably do something, but I would have to secure the appropriate clearances before giving her a definite answer. I will clear the matter with Jack Brady, Staff Chief of the Committee.

15. (Unclassified - LLM) LIAISON Bob Stark, a member of the Student Government at Michigan State University, on referral from Representative Bob Carr (D., Mich.), called to request the participation of an Agency official to take part in a symposium at the University on 7 March to discuss CIA issues. [redacted] former Legislative Counsel of the Agency, will also participate. Mr. Stark said [redacted] O/Assistant to the DCI, had been very helpful in passing on information and referring him to Jack Copley, President of the Intelligence Officers Retirement Association. I made no commitment but said I would look into the matter for him. STAT

16. (Unclassified - NDL) LIAISON Per her earlier request, I mailed Agency brochures to Jean Peeler, in the Columbia, South Carolina office of Representative Floyd D. Spence (R., S. Car.), for use by a constituent.

17. (Unclassified - THW) LIAISON I called Elliot Maxwell, Senate Select Committee on Intelligence staff, and told him of the request of Cory Rosen, on the staff of Senator James Abourezk (D., S. Dak.), for information on Asiatic Aeronautical. I asked Maxwell if he would broker the request since he was the one who sat in on the initial inquiries from Rosen when Senator Abourezk's hearings on supplemental air carriers first began. Maxwell said he would be happy to handle the matter and pass the information on to Rosen. Asiatic Aeronautical was a prior name for Air Asia, a wholly owned subsidiary of Air America, circa 1959.

18. (Internal Use Only - PLC) LEGISLATION Met briefly with Representative Bob Wilson (R., Calif.) and discussed the Agency's legislative proposal to protect intelligence sources and methods which was submitted by former President Ford in his message to the second session of the 94th Congress and which was introduced by Representative Robert McClory (R., Ill.) as H.R. 12006. Mr. Wilson stated he would introduce the bill and, at his request, I met with Karen Heath, his Legislative Assistant, gave her a copy of the bill, and discussed its provisions. Ms. Heath said she would study it further and will be back to me hoping that Mr. Wilson can introduce the bill within the next two weeks. She indicated that she will contact Representative McClory's staff to determine if they will be reintroducing the bill.

10. (Unclassified - RLB) LEGISLATION Roger LeMaster, Legislative Assistant to Senator Walter Huddleston (D., Ky.), called and requested a meeting to discuss sources and methods legislation. This would be a follow-up to our 8 February meeting, during which Mr. LeMaster indicated that Senator Huddleston was planning to introduce a sources and methods bill fairly soon. The meeting has been set for Friday, 4 March at 9:30 a.m.
